

THE GUIDE TO THE SEA RANCH 50TH BIRTHDAY EVENTS

MAY 25, 2014 – MAY 24, 2015

Seals Hi-Fiving © 2014 by Siegfried Matull

Third Edition, September 1, 2014

“THE SEA RANCH 50TH BIRTHDAY”

We are commemorating our 50th birthday, which is almost always “one of the big ones,” by recognizing 50 years of dedication by Sea Ranchers to the preservation of our unique community on the northern Sonoma Coast. As Sea Ranchers we affirm our dedication to The Sea Ranch Vision and our pledge to continue this legacy far into the future.

While there is plenty to be proud of, this will also be a time to look more deeply into how we got here, as well as to examine where we should be going and how. There are so many and diverse areas to consider, that rather than marking this significant birthday on one single day, an entire year is appropriate to encompass a better understanding of what we do best – live lightly with the land, in consonance with each other and our neighbors.

From Memorial Day Weekend of 2014 through Memorial Day Weekend of 2015, Sea Ranchers, renters, our guests, and sometimes our friends and neighbors from other communities, will join to share what we have all learned, what we still need to understand, and to further nurture the accomplishments across lot lines and county lines. We will explore the history, the architecture, the environment, and the culture of The Sea Ranch, but perhaps more importantly, we will be celebrating our life in this beautiful coastal environment because we will have fun together too. Then, upon the conclusion of our anniversary year, we will get on with the business of keeping our dream and reality of The Sea Ranch alive for the next 50 years and beyond.

Congratulations Sea Ranch on 50 years, and we are still making waves!

Frank Bell, Community Manager

WHO MAY ATTEND WHICH EVENTS?

The Sea Ranch is a private community association. Only members, their invited guests, and long-term or vacation renters are allowed access and use of our trails, commons, roads, and facilities. As Sea Ranchers, we recognize that we are dependent upon our neighborhood communities for our health services, pharmacy, newspaper, art center, groceries, gasoline, culture, a variety of restaurants, and, not least, friendships. Our neighbors, in turn, deserve our involvement and support. A central goal of The Sea Ranch 50th Birthday is to build more bridges between us and our neighbors during this special year.

In this guide, each of the forty-eight events is described including who may participate. The events that cannot be open to the public are identified as “Private” which means for “Sea Ranchers, Renters, & Invited Guests.” Events that welcome everyone are simply described as “Public.” Currently, half the events welcome the public, while half must be private.

Note: A number of events that began Memorial Day Week 2014 are ongoing throughout the birthday year.

Starting time 9:00 AM to be completed by 11:00 AM Private

Long-time Sea Rancher, Anna Halprin, a visionary in challenging the conventions of modern dance, will design and lead a “Movement Score for a Walk on the Beach.” This will be based on a project Anna’s husband, Larry Halprin, and Charles Moore had devised to bring concentrated attention to the environment during the early years of developing The Sea Ranch.

Anna has received worldwide recognition and honors for her outstanding contributions in choreography, teaching, and performance art. She and her daughter, Daria Halprin, founded the International Tamalpa Institute for Movement-Based Expressive Arts.

Participants will gather on the trail, outside the Ohlson pool fence (west side) and join in a processional down the pathway and stairs to Ohlson Beach. There they will explore the qualities of the site and work with sand, driftwood, and rock to build images that connect with the environment and celebrate their mutual presence in the place.

This will be a rare experience to be treasured – come share in celebrating the spirit of The Sea Ranch. People of all ages are invited, including children, however, please note that this is an active event that includes walking a path of about 100 yards to 37 steps that lead down to Ohlson Beach.

The 50th birthday year of The Sea Ranch in 2014-15 provides the occasion for "The Once and Future Sea Ranch," an all-day public forum on Saturday, October 18, 2014 at the White Barn. At a time when many of the original founders of TSR have passed on, this gathering is designed to provide outside critique and internal discussion, while generating renewed interest in this early ecological community.

Moderator Jacquelynn Baas will open the program by introducing one of our founding architects, Donlyn Lyndon, who will provide an historical perspective. A panel of five eminent architecture and landscape specialists from outside TSR will assess the history and potential of The Sea Ranch concept: San Francisco Bay Area architectural and urban historian Mitchell Schwarzer; Architectural Record editor-in-chief Cathleen McGuigan; Los Angeles Times architecture critic Christopher Hawthorne; Linda Jewell, UC Berkeley Professor of Landscape Architecture and Urban Design; and architect and planner Will Bruder. The panelists will address the following questions:

- How well has TSR fulfilled the vision(s) of its founders?
- What are the greatest challenges and opportunities facing TSR today?
- How might TSR Vision evolve to address these and future challenges?

You will have the opportunity to participate in an open discussion with our distinguished outside guests as well as with members of TSR community, including TSRA Design Committee and our Board of Directors.

From its beginnings in 1965, The Sea Ranch was a revolutionary statement in architecture, in terms of its indigenous landscape, and the requirements that it imposed upon the buildings envisioned and constructed. After nearly 50 years, it can be easy to forget how cutting edge the entire project was. Today The Sea Ranch is still making waves. Who better to remind us that we continue to be relevant and vital in this 21st century, than the

world's most celebrated avant-garde musical group, the Kronos Quartet?

Internationally noted composer, Aleksandra Vrebalov, is composing an original piece for the group to perform that reflects the understanding and interpretation of The Sea Ranch as expressed by Vrebalov and David Harrington, founder and artistic director of Kronos. In explanation they write,

“There are very few places in the whole world where an entire community is dedicated to live, build, and interact with its surroundings in harmonious and responsible ways.

Counterbalancing destructive tendencies of a century marked by two world wars and catastrophic environmental accidents, The Sea Ranch, soon celebrating its 50th birthday, is a unique, living, materialized vision of a balanced and peaceful world. Kronos Quartet and Aleksandra Vrebalov will celebrate the nature, people, and architecture of this magical place by creating a piece with original music, documented sounds, and visual samples of different aspects of life and creativity in this rare landscape where people and nature are intertwined in a healthy union. The Sea Ranch idea on a global scale might be utopian, but through music we will praise its beauty and affirm its urgent relevance in our wounded world so much in need of healing.”

The world premiere performances will be in our White Barn. This will be the grand finale of our year-long celebration of The Sea Ranch's 50th Birthday. The music will provide a new and exciting perspective, written to represent the physical and human beauty that surrounds us, bringing a new understanding to heighten each individual's relationship with The Sea Ranch. Most profoundly, it promises to be music that will become an integral part of our identity for as long as The Sea Ranch exists.

The composition and concerts are made possible by the generosity of Sea Ranchers.
