Spring Meadow
Timber Ridge Road (*North of Annapolis Rd.*)
(*Excluding: north of Annapolis Rd. to River Beach Rd. on east side of street*)

2019 ROAD WORK INFORMATION

This year The Sea Ranch Association is applying slurry seal to approximately one-fifth of the roads on The Sea Ranch. This treatment has proven to be a cost-effective method of maintaining Sea Ranch roads. Unfortunately, this work requires road closures that might inconvenience you.

Slurry seal forms a crust shortly after application but takes time to fully cure. Vehicular traffic on the road during this curing period can damage both the road and the vehicle. We ask that you not drive on road sections closed to traffic. If damage occurs from a person driving on a closed road, the driver will be responsible for the costs of these repairs.

The accompanying schedule will help you plan your activities to avoid driving on closed roads. Please remember that the schedule is approximate since events such as equipment failures or poor weather can require adjustments. We appreciate your help toward completing this necessary work and sincerely regret any inconvenience.

If you have any questions, please call John Prescott at (707) 785-2444, extension 232.

John Prescott
Director of Facilities and Resources

CLOSURES DUE TO ROADS PROGRAM

THE HOT SPOT AREA
will be closed on Wednesday, September 11

THE SEA RANCH AIRPORT
will be closed on Monday, September 9
and Friday, September 13
